

## Chapter One (b): Logging In

### Summary of Chapter:

- How Admin or a User can log in from the Internet.

### What you need:

- Knowledge of the default Admin username and password for your Pilot.
- Knowledge of a User account and valid password for your Pilot.

### Software Revision Required:

- Applicable to software revision 5.2.0 > Net/CachePilots

(Net/CachePilot will be referred to as 'Pilot'. All image examples are of a NetPilot.)

- Select your web browser and enter the below URL-address in the address toolbar:

<https://Pilot/intro> or <https://theLANipaddress>

### Logging In (Admin):

- When you have selected the 'Log In' link you will be presented with the Pilot log on screen. Enter the default Admin username and password, or the correct username and password if you have changed the defaults:

- Once you have entered your details, select the 'OK' button.

### Logging In (User):

- When you have selected the 'Log In' link you will be presented with the Pilot log on screen. Enter the relevant 'User Account' username and valid password.

- Once you have entered the correct details, select the 'OK' button.
